CONCRETE CONSTRUCTION

ADVANCED LOGISTICS HUB

CMK Logistics utilizes its expansive yard to handle a wide variety of cargo according to each customer's specific requirements.

In addition to general cargo such as pallets and wooden cases, we are capable of handling heavy, oversized and long-length project cargo.

By operating a 25-ton forklift and a reach stacker, we have established an efficient system that enables multiple containers to be loaded and unloaded quickly and accurately.

Our facility also has the capacity to store up to 700 TEU of containers.

LARGEST REEFER CAPACITY AT BUSAN NEW PORT

FULLY EQUIPPED FOR FROZEN & CHILLED CARGO

Since 2016, CMK Logistics has operated reefer-plug facilities for the storage and management of refrigerated containers.

As temperature control is essential for refrigerated cargo, container temperatures are monitored regularly to maintain stable storage conditions and prevent potential incidents.

Our refrigerated warehouse is also specialized for agricultural products and equipped to support quarantine, fumigation and storage procedures within the same facility.

AUTHORIZED FOR DANGEROUS GOODS CLASSES 1, 4 & 6

INDOOR & OUTDOOR DG STORAGE

Since 2014, CMK Logistics has operated hazardous- materials warehouses and developed extensive expertise in the safe storage and handling of dangerous goods.

We review the MSDS for each shipment to determine whether the cargo can be accepted and stored at our facility. After confirming its storage requirements, we handle and store the cargo using the appropriateprocedures.

CMK Logistics has also installed and maintains the safety facilities and equipment required under the Hazardous Materials Safety Control Act and the Chemical Substances Control Act.

STORE YOUR FUTURE

CONTINUOUS INNOVATION FOR OUR CUSTOMERS

CMK LOGISTICS

FACILITY ADVANTAGES

LOCATION ADVANTAGES

CMK SERVICES

CMK Logistics combines advanced facilities and a strategic location to provide services tailored to each customer.

In addition to general cargo, we safely handle hazardous materials and temperature-sensitive cargo in compliance with applicable regulations.

Through continuous innovation, we aim to become a leading logistics hub at Busan New Port and beyond.

Thank you for your continued interest and support.

CEO CHOI MYUNG KYU

FACILITY & EQUIPMENTS

✓ COLD STORAGE & DG FACILITIES
✓ DURABLE, SECURE INFRASTRUCTURE
✓ 14 UNITS OF HANDLING EQUIPMENT

CMK Logistics operates large-capacity old-storage facilities and a dedicated hazard-ous-materials warehouse for safe and reliable cargo management.

Built with steel-fiber-reinforced concrete and supported by 14 units of cargo-handling equip-ment, our facilities provide services tailored to each customer's needs.

◀ REACH STACKER

HIGH-VOLUME REEFER CAPACITY

- Largest reefer-plug capacity at Busan New Port
  (Capacity for up to 130 reefer containers, as of October 1, 2021)
- Two cold-storage warehouses
- 24/7 temperature-controlled storage and handling

DG STORAGE, HANDLING & CONSULTING

- Indoor and outdoor DG storage
- Fire detection, alarm and suppression systems
- Consulting backed by operational expertise

ADVANCED LOGISTICS WAREHOUSE

- Durable SFRC construction
- CCTV, control room and biometric access
- Port cargo storage, handling and transport support

14 EQUIPMENT UNITS

- EQUIPMENT LIST

EQUIPMENT	QTY.
Reach Stacker	1
25-ton Forklift	1
4.5-ton Forklift	10
Floor Scale (5t)	1
Plant Quarantine Station	1

LOCATION ADVENTAGES

✓ NORTHEAST ASIA LOGISTICS HUB
✓ ADVANCED PORT INFRASTRUCTURE
✓ FREE TRADE ZONE ADVANTAGES

Located in the Free Trade Zone at Busan New Port, CMK Logistics is strategically positioned at the center of a major Northeast Asian logistics hub and utilizes the port's advanced logistics infrastructure.

In accordance with the laws and regulations governing free trade zones, we can better meet customer requirements by leveraging the advantages available for import and export declarations, container stuffing and unstuffing, storage, distribution and related operations.

IDEAL CONDITIONS FOR A NORTHEAST ASIA HUB

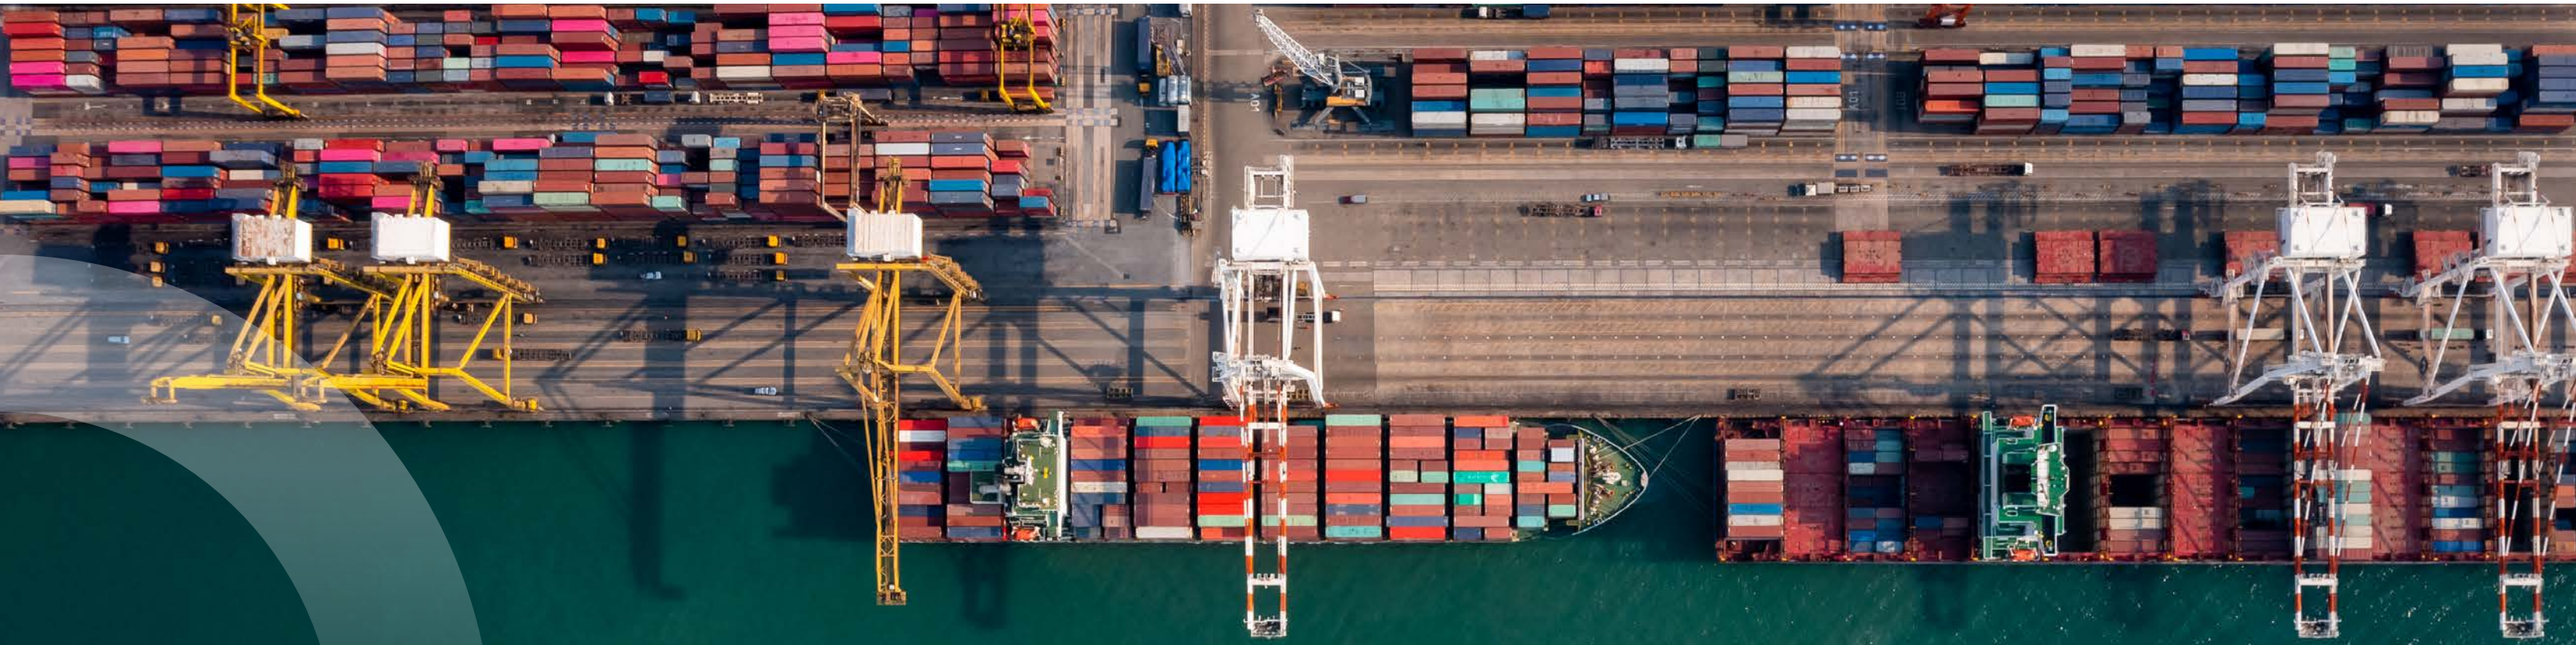

- location: Central Northeast Asian location
- Stability: 24/7/365 operations
- Connectivity: Extensive regional port connectivity
- Port Cost: Highly competitive port costs

ACCESS TO ADVANCED PORT INFRASTRUCTURE

- 45 berths and up to 20 m water depth
- Advanced port automation equipment and systems
- Integrated road and rail connections

FREE TRADE ZONE ADVANTAGES

- Simplified cargo procedures and fewer time limits
- Ideal for processing, repair, inspection and repacking
- Optimized for transshipment cargo
- Diverse new business opportunities

VALUE ADDED SERVICES

✓ FAST INBOUND & OUTBOUND HANDLING
✓ STORAGE, COLLECTION, DELIVERY & REWORK
✓ A WIDE RANGE OF VALUE-ADDED SERVICES

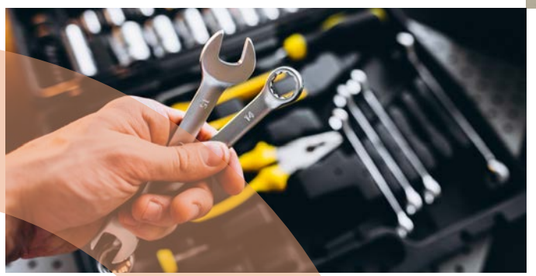

FAST CARGO HANDLING

- Our systemized customs clearance process enables fast inbound handling, storage and outbound delivery.

VALUE-ADDED SERVICES

- Our personnel, equipment and port access enable fast cargo collection and delivery, along with inspection, sorting, repacking, labeling, assembly and processing.

REPAIR & REWORK

- Repair and rework services are available for defective or damaged products following consultation.
